

# Acknowledgements

Special thanks go out to the pre-beta testers that test the constant changes before anyone else gets to see it. When they say there are no problems then I release the code to the others.

- Irene Serrano
- Jesus Irausquin
- Didac Lopez
- Ricardo Fermin
- Patrick Bielen
- Christian Geisert
- Nicola Ken Barozzi - Donated code for the SQL Query Wizard and Spooled File

Without their constant testing and feedback there would be a lot more bugs.

For changes to the current version/release please see the CHANGELOG.txt file.

Comments, questions, bug reports and patches are much appreciated - please subscribe to the list and post them there if at all possible at sourceforge.net.
